

About our facility

Featuring a home-like environment, The Sanctuary at the Woodlands, offers psychiatric and mental health care to a segment of the population many have forgotten.

Taking pride in our facility and care delivery system, we have set our standards high, striving to achieve the best possible outcome for you or your loved one.

Our facility is composed of two units which are tailored to meet the special needs of our patients. A 20-bed adult unit serves individuals aged 19-64 while our other 20-bed unit is dedicated exclusively to seniors, aged 65 and older.

Our most important relationships are with our residents. Their satisfaction is the driving force behind every decision we make at The Sanctuary at the Woodlands. Our goal is to listen, deliver solutions, and enrich lives one resident at a time.

For a tour of the facility and admissions information, please contact our Admissions Coordinator at 256-255-0820.

Admissions Information

The staff at the Sanctuary at the Woodlands wants to insure that you have the smoothest transition with admission to our facility. Call us today at 256-255-0820 and let us guide you to the best option for your situation.

We have a new updated program for our groups and activities that includes: occupational therapy groups by master's level social workers, individual group time with psychosocial assessments, and a great array of activity departments to round out the program for a full line of services.

We also have educational groups by our nursing staff to better educate the patient and families on medications, and treatment process. We want you to receive the most out of your time with us.

The Sanctuary at the Woodlands is a freestanding psychiatric hospital and because of this, we must assure that all patients are medically stable for admission to the facility.

Traditionally, most patients are cleared through a local emergency department or their primary care physician.

Referrals are accepted from many sources including: family members, physicians, nursing homes, assisted living facilities, hospitals, community agencies, and clergy members.

For a tour of the facility and admissions information, please contact our Admissions Coordinator at 256-255-0820.
